

Operational Excellence - Think PEOPLE before TOOLS

1-day Interactive Workshop

Discover the 'hidden factory' within your plant by gaining a better understanding of your plant and equipment Losses

Challenge current practices by creating an Ideal Vision to reinforce what is possible

Use OEE to drive improvement of your plant, line, and equipment performance

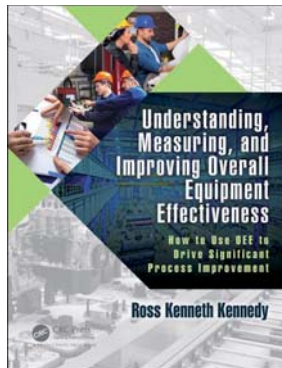

During this workshop you will learn:

- How to align your Operational situation to the right definitions for OEE
- How to calculate OEE so that the data can be used to identify significant improvements
- How to undertake an OEE Loss Analysis using a Cross-functional Team to gain acceptance from all areas and build relationships

Understanding, Measuring, & Improving OEE

To Increase Capacity, Reduce Costs, and free up time for TPM Activities

- **Understand** the Overall Equipment Effectiveness Model and its elements
- **Measure** by agreeing on standard definitions for your model, recognising that 'measures dictate behaviour'
- **Improve** by addressing the 5 types of issues that can affect OEE Losses - Technical, People Development, Supplier, Planning, and Management

Receive a free copy of the book, *Understanding, Measuring and Improving Overall Equipment Effectiveness* by Ross Kennedy at the workshop

This 1-day Workshop will assist you to develop a greater understanding as to why the Overall Equipment Effectiveness (OEE) measure was created and how it should be used to increase capacity, reduce costs, and free up time for TPM Activities.

During the workshop you will be involved in OEE exercises and hands-on simulations.

Next Public Workshop:

Sydney NSW - 17 March 2020

Venue: Host TBA

For Host or In-house workshops contact CTPM
Head Office on +61 2 4226 6184 or
visit www.ctpm.org.au

This outstanding workshop is designed for **Managers and Leaders of Production, Maintenance, and Improvement departments** who are interested in further understanding OEE to support their Operational Excellence transformation
